- Deposits are liabilities; capital is owner's equity.

2. Adjustment of Items in Final Accounts

Overview:

In many questions, additional adjustments are necessary to reflect the true financial position, such as depreciation, accrued income, accrued expenses, or provisions.

Sample Question:

Adjust the following for the year ending March 31, 2023:

- Interest accrued on investments ₹5,000.
- Salaries outstanding ₹2,000.
- Depreciation on furniture at 10%.

Solution Approach:

- Interest accrued increases income; added to interest income.
- Salaries outstanding increases expense; added to salaries.

- Depreciation reduces asset value; deducted from furniture.
- Bad debts written off are expenses; deducted from loans and advances.

Analytical Note:

Adjustments ensure the accounts reflect the true income and expenses, complying with the accrual basis of accounting.

3. Reconciliation of Bank Statement and Pass Book

Overview:

Bank final accounts often involve reconciling the bank's cash book (pass book) with the bank statement to identify outstanding checks, deposits in transit, and errors.

Sample Question:

- Errors in recording deposits: ₹1,000 (pass book overstated).

Solution Approach:

- Add deposits in transit to the bank statement.
- Deduct outstanding checks.
- Adjust for bank charges and recording errors.
- Reconcile the adjusted balance with the pass book.

Significance:

This process ensures accuracy in cash management and highlights discrepancies that need correction.

4. Calculation of Key Financial Ratios

Overview:

Solved questions often require calculating ratios like the Liquidity Ratio, Net Profit Ratio, Capital Adequacy Ratio, and Loan to Deposit Ratio.

Sample Question:

Calculate the Net Profit Ratio given the following:

- Net profit after tax: ₹4,00,000.
- Total income: ₹12,00,000.

Solution:

Net Profit Ratio = (Net Profit / Total Income) × 100 = (₹4,00,000 / ₹12,00,000) × 100 = 33.33%.

Analysis:

Such ratios help in assessing profitability, efficiency, and risk management of the bank.

5. Preparation of Special Accounts

Overview:

Students may be asked to prepare specific accounts like Profit and Loss Appropriation Account, Capital Account, or Provision for Bad Debts Account.

Sample Question:

Prepare a Provision for Bad Debts account given:

- Bad debts written off during the year: ₹3,000.
